

D.1
12-6-88

December 6, 1988

TO: James Truchan, Acting Chief, Environmental Response Division

FROM: Brian Monroe, Environmental Quality Analyst, Site Management Unit,
Remedial Action Section, Environmental Response Division

SUBJECT: J.E. Berger Corporation, 5300 Bellevue, Detroit-
Request for Delisting

This memo is in response to the questions you raised on November 28, 1988 regarding the delisting of the above site. It is also provided as support to my original August 30, 1988 memo to Gary Klepper requesting the site be considered for delisting. Your inquiry concerned the presence of PCB at a level of 23 parts per million (ppm) at one location in Lot 3 and questioned my request for delisting based upon this.

I have reviewed the file and determined that this area of Lot 3 was removed and was shipped off-site on August 11, 1988. This is documented in my notation made on New York Manifest No. A802020-6 (copy attached).

I continue to believe that this site is appropriate for delisting under Act 307 and that the site was adequately cleaned up. If you have any further questions or need to meet with me further, please contact me.
